

We guide you on your journey to increased sustainability

As expectations of sustainable business practices increase, companies and other organisations face growing challenges. Do you want to take a holistic approach to sustainability management and address the diverse sustainability-related demands emerging from society and the environment?

With our Sustainability Services, we help you prepare for future requirements and support your organisation in adopting more sustainable and responsible business practices.

Advisory and reporting

- Updates on national and international regulatory developments
- Review of current and future regulatory compliance issues
- Implementation of regulatory requirements (e.g. Swiss CRI regulations)
- Sustainability strategy, mission statement, targets and KPIs
- Materiality and stakeholder analysis
- Benchmarking and analysis of current sustainability performance
- Sustainability reporting based on standards and frameworks (e.g. Global Reporting Initiative)
- Sustainability ratings, labels and certificates

Audit

- Audit readiness assessment
- Sustainability report audit
- Audit of tools and software
- Methodology audit
- Audit opinion with positively or negatively worded audit opinion (reasonable and limited assurance)

Sustainable finance

- Support in positioning a sustainability policy
- Risk management, internal control systems and corporate governance frameworks
- Audit assurance for disclosures against standards such as UN PRB or UN PRI
- Development and implementation of sustainable finance-compliant processes for investment advisory and portfolio management
- Review of sustainable finance self-regulations and sustainable finance industry standards
- Analysis or structuring of existing or new investment products and portfolios, taking into account ESG criteria
- Employee training

Smart and sustainable cities

- Development of a vision and transformation projects
- Implementation of more agile management structures
- Support in decision-making and communication processes
- Support in implementing regulatory and financial changes in the area of sustainability

Our clients cover a broad range of industries, segments and organisational forms: we support public interest entities, large corporations, financial institutions, SMEs, startups, public administrations and municipalities.
